## BEREA GRADED SCHOOL OPENING

Tuesday morning at 8:30 the opening exercises were held in the new chapel room of the Graded School building. It was one of those occasions long to be remembered. It was an inspiration to see our little people gather for this event. They numbered twelve more than last year at the same event. The teachers number seven, one more than last year, Miss Isaacs being the new teacher. Principal Gilbert was properly initiated by the glad welcome that the pupils gave him. The year began with the most promising outlook for a good and profitable one.

The exercises, in the absence of the president of the Board of Trustees, were conducted by Dr. Best. A Scripture lesson was read and prayer was offered by the Rev. D. W. Brown. Professor May made a few remarks appropriate for the occasion.

We are glad to announce that the entire school building has been cleaned and fumigated and every precaution for health of our children has been observed. It is in perfect sanitary state and no parent need fear for the ill health of the children.

One marked change in the way of improvement in the primary department, please note the PRIMARY DEPARTMENT ONLY is included in this change. There will be one session per day for this department from 8:30 a. m. till 12:00 noon. This eliminates the short afternoon session.

Another improvement in regard to the devotional services with which each day is begun. On every Wednesday morning at 8:30 the chapel service will be in charge of some minister of the gospel. At these sessions all patrons of the school are invited and urged to attend whenever it is possible. This will be known as "Patrons' Day" and every parent and guardian should attend in order to keep in touch with the work going on in your school. You must remember that this is your school and any suggestions for further improvement will be gladly received and considered. Your frequent presence with the school children will be appreciated. Come!

## USERS OF COLLEGE WATER

The persons using water from the College mains are notified that strict economy must be observed. There is great danger that the flow will not be sufficient when the students arrive next week and that outside users will have to be limited. Our first endeavor will be to see how well we will do if everybody is conscientious and careful in use of water. It is believed that faucets are left open and leaks occur which could be avoided. Let each user be careful.

## TO PARENTS IN BEREA

Berea College in all of its departments is overcrowded in the winter. It has, therefore, been obliged to make a rule that young people who live in Berea, if they propose to attend Berea College, must begin in the fall term. Those who neglect to attend during the fall term cannot be allowed to come in the winter, and crowd out students from a distance for whom the winter is the only chance. If young people in Berea wish to attend the Institution, let them start in at the beginning of the fall term.
